

Sept 1/99

Dear Jane,

252
From: The Thurston
and Anderson family
plus for all our
Grandchildren
& The Borelands too.
The consumption of added sugar has
jumped 25 percent since 1984,
squeezing healthy foods out of the
diet. As a member of the Center
for Science in the Public Interest
(CSPI), I urge the FDA to establish a
"Daily Reference Value" for added
sugar of 40 grams and to require
labels to disclose how much added
sugar a food contains.

please

& Thank You.
with Best Wishes,
Hattie Is.
